13 March 1969

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Weekly Report of the Office of Training

1. ABM System Orientation Slated for 26 Staffers

OTR's request for 26 slots in the Department of the Army's SENTINEL Orientation Course at Fort Bliss, Texas, has been granted for the remaining nine courses scheduled during CY 1969.

A basic introduction to technical, developmental and deployment aspects of the SENTINEL ABM System, the course provides familiarization with the rationale for ABM deployment patterns, selection of levels of defense, time required for R&D programs and the time relationship between system R&D and deployment.

NPIC has already requested 16 of the spaces and IAS desires 10 slots.

2. Language-Dubbed Video-Tape Technique Developed by LS

Two Language School officers recently developed a technique for video-taping motion pictures during projection and later adding sound tracks in selected languages. During the experiment, a color film of Thailand with German narration was video-taped. Considerable interest was expressed by language instructors in the technique's possible uses for varied learning situations.
